None of the materials used in the manufacture of SDM[®] 27 are of animal origin nor do they come into contact with any materials of animal origin.

Other Comments: The current source of glycerin, which is used in the manufacture of nitroglycerin, may be derived from palm, palm kernel and/or coconut oils. However, the manufacturer states that the glycerin is "highly processed, distilled and purified" and that "any protein residue in the crude oils is removed by the processing, thus removing the allergens."
